

PANDEMONIUM OF BELLS AND WHISTLES SEPT. 12

Chattanooga's Indorsement of New Draft to Be Heard in Berlin.

The entrance of the new year and the accompanying noise made by the blowing of whistles and the ringing of bells will be a small affair as compared with the same kind of demonstration to be made in Chattanooga on registration day, Sept. 12. According to the following circular sent out from the executive office at Nashville, enough noise is to be made on that day to be heard in Berlin:

"First—As you know, Sept. 12 has been designated by the president as registration day, when every citizen between the ages of 18 and 45, inclusive, shall register (except those who have previously registered).

"Second—It is desired to make this day one long to be remembered and we have requested all the railroads and manufacturing plants in Tennessee to have every steam whistle blown for five minutes Thursday, Sept. 12, beginning at 7 o'clock a.m., the time the registration commences.

"Third—We want members of the selective service system, as well as states Council of National Defense, to arrange to have every available hand playing, church and other bells ringing at that time.

"Fourth—We also desire flags flying from every federal, state, county and municipal building on that day.

"Fifth—We want to make enough noise to be heard in Berlin."

SCALE OF PRICES FIXED BY EMPLOYMENT BUREAU

Basis Fixed After Careful Investigation of Conditions and Living Costs.

The local office of the United States Employment Bureau has submitted to the statistical bureau of the department of labor a scale of wages that are now being paid in Chattanooga. This information has been furnished to the bureau in order that they may make an average of the wages paid

Hooray! Baby To Rule the House

No Longer Do Women Fear The Onset of All Human Blessings.

Thousands of women no longer resign themselves to the thought that sickness and distress are natural. They know better, for in Mother's Friend they have found a wonderful penetrating remedy to relieve many dreaded experiences.

Nervousness, bearing-down and stretching pains are among the distressing and distressing experiences women everywhere say they entirely escape during the period of expectancy by the use of Mother's Friend.

Here is a remedy that softens the myriad of broad, flat abdominal muscles just beneath the skin, enables them to expand without the usual strain upon the ligaments and nerves and assists nature to make it possible for women to go through maternity without many of the dreaded symptoms so familiar to a host of women.

By regular use throughout the period the muscles expand easily when baby is born, and pain and danger at the crisis is consequently less.

Mother's Friend is for external use only, is absolutely and entirely safe and has been used by thousands of women awaiting the greatest time in a woman's life for over half a century.

Write The Bradford Regulator Co., 173 Lamar Bldg., Atlanta, Ga., for their "Motherhood Book," so valuable to expectant mothers, and in the meantime obtain a bottle of Mother's Friend from the nearest drug store. Begin its use strictly according to directions with every bottle, and thus fortify yourself against pain and discomfort. (Adv.)

Optical

Have your eyes examined by Jahnke, Optometrist. Latest instruments to detect and correct optical defects. Lenses to suit all kinds of eyes.

Thirty years' experience in examining eyes and fitting glasses. We do our own lens grinding.

SEVENTY PHYSICIANS CHATTANOOGA'S QUOTA

Government Provides for Civilian Needs but Draws Heavily on Doctors.

The question of whether local doctors will enlist voluntarily and receive commissions as physicians has been the case with many physicians throughout the country, they will choose to be drafted and enter the army as privates, is a problem which confronts every local physician and one which can be settled by each according to his lights. This was the substance of a review of the local situation which has caused so much comment lately, that of the doctors and the draft, made by a local doctor today.

Since the extension of the draft ages was first mentioned there has been much discussion as to the status of physicians in the draft and the chances of Chattanooga being left without adequate medical services. Local draft board officials give it as their opinion that unless the doctors make other provision before they are called before the boards they will be drafted and sent into the army as privates.

The organization of the volunteer medical corps is being effected for the purpose of conserving and using to best advantage the medical resources of the country. The plans for organization of the corps in this region, which were taken up at the last meeting of the local medical society, are being carried out, and most of the doctors in the city have agreed in their application blanks to have service in their application blanks.

The physicians to state whether they prefer to become members of the medical corps of the army or whether they wish to await assignment to civilian service. If they state that they wish to enter the army they will be given a commission. This commission, through the medium of the volunteer corps, at present seems to be the only path now open to doctors in the draft to secure commissions, unless the recent order prohibiting enlistment does not apply to the medical reserve. It is expected that the majority of local doctors will take advantage of this opportunity to secure commissions, but a certain number of them will have to stay at home willy nilly, as the government has decided to allow one doctor to every 1,500 of the civilian population, which would mean that only a few of the 150 physicians now here to attend to civilian wants.

As the situation now stands, it appears that all doctors who do not enter the volunteer corps and either apply for commissions or await civilian assignment are excluded on the grounds of dependency or disability. It is practically certain, however, that none of the physicians will wait for the draft, but from present indications most of them have already signed up with the volunteer corps.

HUGH BROWN BECOMES STUDENT OFFICER

Another Son of Hon. Foster V. Brown Joins Colors and Is Ordered to Camp Gordon.

Hugh Brown, who has been for some time past connected with the United States shipping board emergency fleet corporation, with headquarters in Philadelphia, has been ordered to report to the officers' training camp at Camp Gordon, Atlanta, Ga. Mr. Brown made application for the camp some time ago, but was only last week ordered to report for training. Hugh Brown is the son of Hon. Foster V. Brown and a brother of Lieut. Foster V. Brown, Jr., who was recently wounded in France while gallantly leading his company.

SHRAPNEL

Reports through Holland say that King "Foxy Ferdinand" of Bulgaria, who recently fled from his own country to a safer place in Germany, will not get into favor of Crown Prince Boris.

British has formed a committee to get into the army of the United States, and soldiers stationed in the French lines.

ANOTHER CHATTANOOGAN CALLED TO Y. M. C. A. WORK

Howard E. Newberry Leaves to Take Up Preliminary Training for Overseas Service.

Simultaneously with the first news from Dr. E. L. Grace, who is in the Y. M. C. A. work abroad, came the request from New York headquarters that Howard E. Newberry come at once for the preliminary training and preparation for the work across the water. He left Sunday for New York.

Mr. Newberry leaves a responsible position with the Dixie Portland Cement company to take up Y. M. C. A. work on the firing line. He makes a considerable financial sacrifice besides facing danger and privation to help the boys in the trenches. However, his work will have a brighter side.

There are still a good many people who do not understand the details of Y. M. C. A. war service. An impression is more or less prevalent that a man who undertakes it is deprived of every comfort.

Such an idea is very erroneous. Of course, the work is exacting and sometimes dangerous. The workers are in the trenches and along and behind the line of battle. They get plenty of thrills, plenty of hard work and some privation.

But the association is able to provide them shelter and wholesome food, and while they share many of the dangers and fatigues of the soldiers, they have reasonable opportunities for recreation, including hours when they are at leisure and many chances to see and know the quieter side of France.

A report which was current during the past week to the effect that they were allowed to take nothing with them but their uniforms was denied at the recruiting board's office at 619 James building. It was announced, on the contrary, that they might carry articles of personal comfort with them to a reasonable extent.

The association knows that these men are volunteering for exacting and dangerous work, that they are leaving pleasant homes and lucrative employment to undertake it, and so it tries to make up a part of this sacrifice by making a fair monetary allowance to the wives or children or aged parents they leave behind them. It tries, too, to make them as comfortable as it can when they are in the field.

Local hotel managers have marked the fact that Mr. Burton, whose valued services were loaned to the association by the Presbyterian Sunday School association, of which he is secretary, is to continue with it for a few weeks at least.

World Series Shrapnel

For a chap who was figured to cut about as much figure in the series as a man who was a left fielder, he is doing right well. His hitting has figured in all the runs the Red Sox have scored.

Bullet for Bush and Louie Mann came near missing in the fourth. Mann was speeding down to first after rolling a ball to second, when he was hit by a line drive from the pitcher.

Tyler started the first three innings by walking the first man up, but his reliability did not damage. The pitcher almost amply when he punched out the single that scored two runs and won his own ball game.

Although Tyler won and Jim Vaughn lost, Tyler did not pitch nearly so brilliantly as Hippo. Luck broke for him and he broke against Vaughn—that tells the story.

Fred Thomas has a perfect fielding average today and Charley Pick has a hit through the generosity of this pitcher's score. Pick's tap to Thomas tricked through the third baseman's legs for a hit that was plainly an error, but the official scorer did not see it that way.

Charlie Deal, on the other hand, was given an error on a sharp hit by Bush that he had bound. It looked as though Bush should have had credit for a single.

Although he owns a few old wells and other property, Tip O'Sullivan, former president of the Western league, is doing his bit in this series by taking in the dime at the "not-good" counter.

Dave Shan was recently teased when his interference with the plate and the umpire's throw to catch Hooper stealing. The umpire promptly called Hooper out, and the Cubs got credit for the first double play of the series.

Instead of the usual line of ticket scalpers outside the gates, a line of official benchmen passing out campaign literature greeted the incoming fans.

The world's series, when the old Philadelphia Athletics were in their glory, were recalled in the eighth when Willie Schang went behind the bat for Boston. The old "Bush and Schang" battery had a familiar sound.

FRIENDS MAY REGISTER IF SELECTMAN IS ILL

Those who are in the draft age will not be exempt from registering next Thursday on account of illness. Arrangements have been made for the postponing of these persons and the following instructions have been received by the local boards:

"The new manpower act does not exempt sick persons from registering on registration day, if they come within the extension of the age limits. But for the convenience of these persons, and in order that they will not have to appear personally before their local draft boards for enrollment, the following arrangement has been made in the instructions sent to the draft officials from this office:

"Any person who, on account of sickness, is unable to present himself for registration on the day set by the board, may apply to a competent person to apply to a local board for a copy of the card and for authority to fill it out (including the registrar's report on the back thereof). If satisfactory the case is bona fide, the member of the board to whom the request is made will deputize the person applying for the card to make out the card and the registrar's report, first carefully explaining the card.

"The person so deputized for the 'date of registration' shall be stamped or written the designation of the local board so deputizing the person applying for the card and below the designation shall be written the word 'sick.' When made out, the card will be mailed by the sick person, or delivered by his agent to the local board having jurisdiction of the area in which the sick person permanently resides."
